

2nd Annual Pittsburgh Cure Sarcoma Golf Outing At Willowbrook Country Club

January 7th 2014

We are pleased to announce the 2nd Annual Pittsburgh Cure Sarcoma Golf Outing which will be held on Saturday, August 23rd, 2014 at the Willowbrook Country Club. The event is being organized in cooperation with the Sarcoma Foundation of America (SFA). We have been working with the SFA to plan this event that will raise awareness and funds to support sarcoma research. The success of our event depends on contributions from both respected organizations and concerned individuals.

We are aware that in these difficult times, making a financial contribution for a cause can be challenging. However, the challenge of fighting sarcoma is far greater. Sarcoma is a rare, often fatal cancer that affects nearly 15,000 American adults and children each year. Unfortunately, there has been little progress in finding novel treatments for sarcoma. The current economic environment makes it difficult for sarcoma scientists to perform research on this rare disease. Our goal is to raise both awareness and resources for sarcoma research through the SFA and the University of Pittsburgh Cancer Institute Sarcoma Research Fund.

Please review the attached brochure and kindly join us with a commitment to the 2nd^t Annual Pittsburgh Cure Sarcoma Golf Outing. We hope that you will consider donating generously as we strive to find a cure in our time. Your participation and generosity on Saturday, August 23, 2014, is deeply appreciated.

Sincerely,

Tony Ferlenda
SFA Chief Executive Officer

Rhett Crooks
Golf Outing Director
